Gokuleshwor Agriculture and Animal Science College, Gokuleshwor, Baitadi

Rounds

Choose your topic Round

Instructions

- Each team selects a topic they would like to attempt.
- All topics are related to the field of Agriculture Sciences.
- Each topic will pose 10 questions for the team.
- 10 points will be awarded on every single question, upon correctly answering. Hence a team can secure a maximum of 100 points in this round.
- No deduction in score will be made for answering the question incorrectly.

Option topics are:

1. Agricultural economics and extension
2. Plant pathology
3. Entomology
4. Horticulture
5. Agronomy, genetics and plant breeding
6. Agricultural engineering and soil science
7. Animal sciences and industrial agriculture

General knowledge Round

Instructions

- Each team will be asked question for the respective choice of number they make.
- There will be a total of $N \times 5$ questions asked.
- Correctly answering a question on first hand will reward the team with 15 marks.
- Incorrectly answering a question will reduce 5 marks in the team's score whereas passing the question will not lead to deduction of score.
- Question will be passed to the next team upon answering incorrectly with a reduction of 5 marks in the previous value of question.

Double trouble Round

Instructions

- Question topics will be general type.
- Each question carries 10 points.
- Each team can choose to double the points on offer.
- If they get the answer correctly, points will be doubled. However, if the answer is wrong 5 points will be deducted from their score.
- The question will not be passed to the other teams.

Get a clue Round

Instructions

Each team will be asked a (typically difficult) question. The team tries to answer in following way:

- There are $2 \times N$ questions available.
- No score deduction will be made in case a team gets answer wrong.
- The questions will be passed to the next team for the current value of answer.
- Team can choose not to obtain clue and get 15 points for correctly answering.
- Team can choose to obtain first clue and get 10 points for correctly answering.
- Team can choose to obtain second clue and get 5 points for correctly answering.

Just list it Round

Instructions

- Each team will be asked a question that demands multiple answers in a list.
- Each question carries 15 marks.
- Each correct item in the answer to the question will be awarded equal points.
- When decimal score is obtained it is rounded to nearest value of 5 in 1st digit place.

Connect question Round

Instructions

- Pictures or audible clues will be provided and question related to the clue will be asked.
- There will be a total of $N \times 2$ questions.
- Each question carries 15 marks.
- Question will not be passed if answered incorrectly.

Rapid fire Round

Instructions

- There will be a total of 10 questions for a team to be answered within a 2 minutes time period.
- Questions will be homogenous and of similar lengths.
- There will be no deduction of score for getting answer incorrectly.
- Each question carries 10 marks. Hence the maximum score a team can secure in this round is 100.
